

CHANGE IN FILE STATUS  
APPROVAL FORM

DATE January 14, 1988

CURRENT FILE NO. DOE/023/009 & DOE/039/004

RECOMMENDED FILE NO. Closed ✓

COMPANY AND MINE NAME Mineral Life Corporation, various "Trace Mineral" Claims

REASON FOR CHANGE IN FILE STATUS

Mineral Life Corporation has only one operation currently active in the State; M/023/008. The two above DOE's were filed during their prospecting phase in the Sevier Bridge Reservoir Area. Neither are currently active or associated with any significant on ground disturbance. I spoke with Company President, Mr. Bacon, on January 14, 1988 and he concurred with my request to retire the files.
